Thile above are First Class, justly popular, and prompt paying companies. They invite investigation into their condition and solicit Justness entirely upon their real merits. In point of solveney and reliability and homorable dealing, they have but five equals, and no superiors. They are founded upon the very best securities in the world-first class bonds and mortgages upon property in New York and Brooklyn—securities that have not, for the past ten years, depreciated below par, and are every way more reliable and permanent than rathroad, bank, and other stocks, which are subject to the finetuations of the market, and liable, in times of panie, as the experience of the past tencies, to become almost, if not entirely, valueless. And while there are Companies entering the field of competition, well calendered to mislend by publishing partial and one-sided statements of their condition, and without a cash surphis on hand sufficient to reinsure their outsanding risks, the above named companies always have and keep over and above their enpiral luies the amount, and in most instances four times, needed for the reinsurance of all their risks. With such a foundation, and with such a condition, they claim the right to look with confidence to the public for liberal patronage.

Gentlemen :- Your official communica tion of the 18th inst, informing me that the representatives of the republican party of the United States, assembled at Chicago on that day, had, by a unanimous vote, selected me as their candidate for the office of vice president of the United States, has been received, together with the resolutions adopted by the convention as its declaration of principles. Those resolutions enunciate plearly and forcibly the principles which unite us, and the objects proposed to be accomplished. They address themselves to all, and there is neither necessity nor proany of them. They have the approval of my judgment, and in any action of mine will be faithfully and cordially sustained.—
I am profoundly grateful to those with whom it is my pride and pleasure politically to operate, for the nomination so unexpectedly conferred, and I desire to tender through you to the members of the convention my sincere thanks for the confidence thus reposed in me. Should the nomination which I now accept be ratified by the people, and the duties devolve upon master fractions. priety in my entering upon a discussion of the duties devolve upon me of presiding over the senate of the United States, it will be my earnest endeavor to faithfully discharge them, with a just regard for the rights of all It is to be observed, in connection with the doings of the republican convention, that a paramount object with us is to preserve the

To Hon. G. ASHMUN, Pres't, &c. AN EXTRAORDINARY CURE FOR DEAF-NESS.—A new discovery, made not long since, in Paris, excites a great deal of attention, not merely on account of its intrinsic importance, but because of the melancholy result of it to the discoverer. It appears that a Mdlle. Cleret, a school mistress, had been for many years very deaf, but one day she bought some thread which was wrapped in a leaf of some work on ge ography which had fallen still-born from the press, and had been sold as waste pa-She read on it that certain peasants would cure themselves of deafness by exposing their cars to certain emanations .-She forthwith began to make experiments on herself, guided to different objects not by chemical knowledge but simply by accident. After having used the most painful substance she now uses, and experiencing the good effects of it on herself, she applied it to her pupils: Twenty-nine children were attended by her, and in every instance advantageous results obtained. Two chiliren, declared by approved medical men to be incurably deaf and dumb, were com-pletely cured by her. Seven other children were attended by her, under the supervision of a committee-these children were com-

pletely deaf and dumb. All of them, after her attentions for eight or nine months, evdently greatly improved,

But Mdlle, Cleret was poor, and she
wrote to the minister of public instruction, announcing her discovery and asking the state to assist her in making it known.-Dr. Behier was appointed to examine pro-foundly into Mdlle. Cleret's method, While in the midst of the examination of the state. of the children confided to her care, MdHe. Cleret went mad. CAPITAL AND SUBBLES,

THE above are First Class, justily requiter, and prompt I paying companies. They invite investigation into their condition and solialt bushness entirely upon their real merits. In point of solveney and reliability and honorable dealing, they have but few equals, and no superiors. They are founded upon the very best securities in the world—first class bonds and mortgages upon property in New York and Brooklyn—securities that have not, for the past rep years, depreciated below par, and are every way more reliable and permanent than railroad, bunk, and other stocks, which are subject to the fluctuations of the market, and liable, in times of panic, as the experience of the past teaches, to become almost, if not entirely, valueless. And while there are Companies entering the field of competition, well calculated to mislead by publishing partial and one-vided statements of their condition, and without a cash surples on hand sufficient to relineurs their constanding risks, the above named companies always have and keep over and above their capital twice the amount, and in most instances four times, needed for the reinsurance of all their risks. With such a foundation, and with such a condition, they claim the right to look with confidence to the public for liberal patronage.

Policies issued without delay, and farms risks for a series of years taken at less rates than can be done by Mutual Companies, and a certainty given instead of an more latiny. All losses promptly adjusted and paid. CAPITAL AND SURIEUS, - -

LINCOLN AND HAMLIN. Their Letters of Acceptance.

NEW YORK, June 8. The following are the letters of acceptance of Abraham Lincoln and Hannibal Hamlin:

FROM MR. LINCOLN. SPRINFIELD, Ill., May 23, 1860.

Hon. George Ashum, President of the Republican National Convention:

Sin: I accept the nomination tendered me by the convention over which you presided, and of which I am formally apprised, in the letter of yourself and others acting as a committee of the convention for that purpose. The declaration of principles and sentiments which accompany your letter meet my approval, and it shall be my care not to violate it or disregard it in any part. Imploring the assistance of Divine Providence, and with due regard to the views and feelings of all who were represented in the convention; to the rights of all the states and territories and the people of the nation; to the inviolability of the constitution and the perpetual union, harmony and prosperithe practical success of the principles declared by the convention. Your obliged friend and fellow citizen

ABRAHAM LINCOLN.

FROM MR. HAMLIN. WASHINGTON, May 30, 1860.
GENTLEMEN:—Your official communication of the 18th inst. informing me that the representatives of the republican party of the United States, assembled at Chicago on that day, had, by a unanimous vote, selected me as their candidate for the office of vice president of the United States, has been received, together with the resolutions adopted by the convention as its declaration of principles. Those resolutions enunciate clearly and forcibly the principles which unite us, and the objects proposed to be accomplished. They address themselves to all, and there is neither necessity nor propriety in my entering upon a discussion of any of them. They have the approval of my judgment, and in any action of mine will be faithfully and cordially sustained.— I am profoundly grateful to those with whom it is my pride and pleasure politically to operate, for the nomination so unexpectedly conferred, and I desire to tender through you to the members of the convention my sincere thanks for the confidence thus re nosed in me. Should the nomination which the duties devolve upon me of presiding over the senate of the United States, it will be

now accept be ratified by the people, and my earnest endeavor to faithfully discharge them, with a just regard for the rights of all. It is to be observed, in connection with the doings of the republican convention, that a paramount object with us is to preserve the normal condition of our territorial domain as homes for free men. The able advocate and defender of republican principles whom you have nominated for the highest place that can gratify the ambition of men, comes from a state which has been made what it is by special action in that respect of wise and good men, who founded our institutions. The rights of free labor have there been vindicated and maintained. The thrift and enterprise which so distinguished Illinois as one of the most flourishing states of the glorious west, we would see secured to all the territories of the Union, and restore peace and harmony to the whole country by pence and narmony to the whole country by bringing back the government to what it was under the wise and patriotic men who created it. If the republicans shall succeed in that object, as they hope to, they will be

held in grateful remembrance by the busy and teeming millions of future ages. I am very truly yours, H. HAMLIN

To Hon. G. Asnmun, Pres't, &c. AN EXTRAORDINARY CURE FOR DEAF-NESS.—A new discovery, made not long since, in Paris, excites a great deal of attention, not merely on account of its intrin sic importance, but because of the melancholy result of it to the discoverer. It appears that a Mdlle. Cleret, a school mis tress, had been for many years very deaf, but one day she bought some thread which was wrapped in a leaf of some work on ge graphy which had fallen still-born from the press, and had been sold as waste pa-per. She read on it that certain peasants would care themselves of deafness by exposing their ears to certain emanations.she forthwith began to make experiments on herself, guided to different objects not by chemical knowledge but simply by accident. After having used the most painful substance she now uses, and experiencing the good effects of it on herself, she applied it to her pupils. Twenty-nine children were attended by her, and in every instance advantageous results obtained. Two children, declared by approved medical men to be incurably deaf and dumb, were com-pletely cured by her. Seven other children were attended by her, under the supervision of a committee—these children were completely deaf and dumb. All of them, after

her attentions for eight or nine months, evdently greatly improved.

But Mdlle. Cleret was poor, and she wrote to the minister of public instruction, announcing her discovery and asking the state to assist her in making it known.-Dr. Behier was appointed to examine profoundly into Mdile. Cleret's method. n the midst of the examination of the state of the children confided to her care, Mdlle. Cleret went mad. The contrast between her excessive poverty and new independence of fortune, between the obscurity of her position and the fame given by her cure were too much for her wits. She is now in a lunatic asylum.

The medical means used by Mdlle, Cleret was sulphuric ether poured directly into he ear, in a dose of four or five drops a day. Usually this agent produces only a slight degree of sensibility or pain. After it has been used fifteen or twenty days, the perator may suspend its use for several days, to retain its energy better, and then resume its use. It is said that the cure has not yet failed in any of the numerous cases in which it has been applied.

The Cincinnati Gazette says that the true issue of this presidential campaign is: shall the laborers of this land be compelled to take the position of a degraded caste? This is true—if you make slave laupon a par with the slave. Let the working men of the country think of this. Gerritt Smith is again proposed as a pres-

idential candidate by a meeting of abolition

Letiers of Acceptance.

We give to day the letters of acceptance from Lincoln and Hambin. They are brief and direct to the point. Enough, said and not too much. In November, the people, by notes briefer than theirs, will accept them. and endorse them as good for four years.

200 The Charleston Mercary proposes to the democracy to run two candidates, one in the north on a squatter sovereignty platform, and another in the south on the platform of intervention in favor of slavery .---It says: "We firmly believe that this is the only possible way the republican party can be beaten and the democratic party sucreced in the next pre-idential election." This is the opinion of other democrats be sides the Meccacy, but the plan won't win. The people will see through the game and defeat it by the election of Lincoln. The democracy are beaten, this time, whatever smart in getting up deceptions, but their hone has come, and they had better submit to defeat with a good grace.

The south is outdoing Seward in its devotion to the "irrepressible conflict" and "higher law ideas." At a late religious convention in South Carolina, when the question of declaring slave marriages void came up, one Col. John Phillips said, after doubting the policy of agitating the question, and whether a slave could make a contract, that " He understood that when the value of God is heard it overrides all human time, but he was not to be persuaded that it is reasonable to force the church into an antagonistic position to the state." For the last month we have been bored through and through with the Japanese, and as had Lick would have it, the steamship Niagara met with an accident so that that they cansof be carried from our hospitable shores for another month or six weeks. In the seems time they have commenced their travwho and the telegraph has began its report of what they did, how they look, and what the mayors and ladies said to them. We wish the government would hurry up the Niagara, and get her started at least a week before the Great Eastern humbur arrives. so that we may have a little breathing

Now that Buchanan turns out worse than Pierce, they are hard on the rold public functionary, and propose to nominate quother good man. How many times shall we try them before it becomes certain that there is not a man among them fit for president?

COMPLIMENT TO CARL SCHURZ,-The magnificent speech, delivered by Hon. Carl Schurz, at the recent republican ratiacation meeting in Milwankee, is highly commended everywhere. The New York Tribune says:

"This is the season of eloquence; but of all the ten thousand political speeches which it has lately been our duty to read, that of Carl Shurz, of Wisconsin, made at Milwaukee last Wednesday, is perhaps the most eloquent and inspiring. We regret that we have not room to copy it."

And the 'Albany Evening Journal adds: "Carl Schurz has recently made a speech at Milwankee, which is pronounced by those who heard and those who read it, to be the very master-piece of eloquence.

WHAT ARE THEY AFRAID OF ?- Horalio Seymour having been spoken of as the democtatic candidate for president, hustens to decline: and Wm. A. Richardson, the right hand man of Douglas in the House when the Missouri compromise was repealed, and who was a candidate for governor of Illinois in 1856, now gives notice that he will not run again for that office. The political prospects of these gentlemen do not look very flattering, allowing them to be their own judges.

The regular democratic conventions of theorgis, and Alabama have, by very large majorities, indorsed the unjority or southern platform, and sent delegates to Baltimore via Richmond. Letters of Acceptance.

We give to-day the letters of acceptance from Lincoln and Hamlin. They are brief not too much. In November, the people, by notes briefer than theirs, will accept them, and endorse them as good for four years.

The Charleston Mercury proposes to the democracy to run two candidates, one in the north on a squatter sovereignty platform, and another in the south on the platform of intervention in favor of slavery .-It says: "We firmly believe that this is the only possible way the republican party can be beaten and the democratic party succeed in the next presidential election." This is the opinion of other democrats besides the Mercury, but the plan won't win. The people will see through the game and defeat it by the election of Lincoln. The democracy are besten, this time, whatever course they may take. They are pretty smart in getting up deceptions, but their hour has come, and they had better submit to defeat with a good grace.

The south is outdoing Seward in its devotion to the "irrepressible conflict" and "higher law ideas." At a late religious convention in South Carolina, when the question of declaring slave marriages void came up, one Col. John Phillips said, after doubting the policy of agitating the question, and whether a slave could make a contract, that "He understood that when the coice of God is heard it overrides all human laws, but he was not to be persuaded that it is reasonable to force the church into an untagonistic position to the state." Where is Mr. Seward?

The democratic editors had their knives all sharpened preparatory to flaying Mr. Seward, but as he was not nominated, they are shedding tears over him as large as her/seggs. Poor fellows! how bad they

The next great sensation, after the Japanese, is to be the Great Eastern; after that comes the Prince of Wales. The New York gatherer of news for telegraphic reports may as well go to bed, as his services will not be needed for six months to come. All the news comes from the east; nothing happens outside of Washington or New York fit to be reported, as he thinks. For the last month we have been bored through and through with the Japanese, and as bad luck would have it, the steamship Niagara met with an accident so that that they cannot be carried from our hospitable shores for another month or six weeks. In the mean time they have commenced their trayels, and the telegraph has began its report of what they did, how they look, and what the mayors and ladies said to them. We wish the government would hurry up the Niagara, and get her started at least a week before the Great Eastern humbug arrives, so that we may have a little breathing

When Pierce's administration was found to be a failure, the democracy dis owned him, and nominated Buchanan, a real statesman, as they said. Now that Buchanan turns out worse than Pierce, they are hard on the "old public functionary," and propose to nominate another good man. How many times shall we try them before it becomes certain that there is not a man among them fit for president?

COMPLIMENT TO CARL SCHURZ,-The magnificent speech, delivered by Hon. Carl Schurz, at the recent republican ratification meeting in Milwaukee, is highly commended everywhere. The New York

"This is the season of eloquence; but of all the ten thousand political speeches which it has lately been our duty to read, that of Carl Shurz, of Wisconsin, made at Milwaukee last Wednesday, is perhaps the most eloquent and inspiring. We regret that we have not room to copy it."

And the Albany Evening Journal adds: "Carl Schurz has recently made a speech at Milwaukee, which is pronounced by those who heard and those who read it, to be the very master-piece of eloquence.

WHAT ARE THEY AFRAID OF?-Horatio Seymour, having been spoken of as the democratic candidate for president, hastens to decline; and Wm. A. Richardson, the right hand man of Douglas in the House when the Missouri compromise was repealed, and who was a candidate for governor of Illinois in 1856, now gives notice that he will not ran again for that office. The political prospects of these gentlemen do not look very flatter. ing, allowing them to be their own judges.

The regular democratic conventions of Georgia and Alabama have, by very large | er for their apprehension. prajorities, indorsed the majority or southern platform, and sent delegates to Baltimore via Richmond. A few Douglasites got together in Alabama and elected delegates in place of the seceders; whereat the Douglas men in Wisconsin claim a great victory!

It appears that the row in the house the other day, (or night) was occasioned by the attempt of the democrats to prevent republicans from speaking. The whole night was wasted in calls of the house.

The developments in regard to the Fowler defalcation show that the government officials have been for a long time cognizant of the deficiency. Each tries to throw the blame on the other, and the late and direct to the point. Enough, said and Postmaster General Brown is implicated. The corruptions of this administration will send it down to posterity with deserved execration.

> A SCHOONER WRECKED .- During the tornado on Sunday night, a week ago, the schooner McQucen was wrecked on Lake Michigan. The vessel was found bottom upwards. Eight persons were known to have been on board-Daniel French, the captain, his wife and child, two sailors and two passengers. The storm must have taken them almost unawares, for there was but one reef in the sails.

There is to be a change of venue in the Burch divorce case; probably to Kane or Will county.

More Tornadoes in Iowa .- A correspondent of the Chicago Journal gives an account of a tornado which occurred on Sunday afternoon, 3d inst., which destroyed the town of New Providence, in Hardin county, nearly killing a number of persons. At Prichard's Grove, in the same county, the brick house of Mr. Divine was blown into a beap of ruins, and six persons, all members ! of Mr. D.'s family were killed. Why does the democratic senate refuse to admit Kansas? Because that territory will not have slavery, and because her admission would give the republicans three electoral votes. This action of the senate will give the republicans five votes for every one thus lost.

A liberal homestead law, giving unmarried persons, and foreigners who have declared an intention of becoming citizens as well as others, one hundred and sixty acres of land, upon condition of cultivating it for five years, is demanded for the best interests of the people; but the democratic senate says, no. A writer in the North British Re. view believes that the people of Europe are hastening to arrange themselves into three great divisions, which recognize race, religion and geographical position. The leader of the first, or Latin race, is Lonis Napoleon, forming a great Roman Catholic Empire. Reduction of Expenses, &c .- The Wan pun Prison City Item says :- Already there has been an immense reduction of the our rent expenses of the prison under the present administration, and that too of a char acter so decidedly appropriate and without the least injury to the institution or any of its legitimate demands, that we cannot forbear to mention it. The first quarter closed with an expense of \$8,000 against \$12,000 of last term, and, we are fully assured that this sum can and will be greatly reduced at the close of the present quarter.

THE RIVER. - The Misissippi is nearly up o full banks, and many of the islands flooded at La Crosse, says the Union. Reports from St. Paul state the water about at a stand still on Thursday night. It is thought the river is about at its height for this season. It is now within about 31 feet of the great rise of last year.

EARLY SPRING IN THE NORTHWEST .- The Northwester, of April 28th, published at the Selkirk Settlement, states that the Red Riv er was clear of ice, that the farmers were busy breaking up their lands for spring crops, and that "those harbingers of summer, the birds of southern climes, had again forced their way to the north." The winter in the Red River country was an open one, and the fall of snow was unusually light.

SOUTHERN OPINION OF SOUTH CAROLINA BLACKGUARDISM.—The Louisville Journal while not liking Senator Sumner's speech was still more displeased with Senator Chesnut's reply. It says:

If the South Carolina Senator was anxious to denounce and grossly insult some abolition member of congress for an anti-siavery speech, he certainly knew a good many of them who had made for coarser and bitterer and more ferocious ones than that of the Massachusetts Senator. Chesnut spoke of Sumner as a coward, and we have no doubt that he was perfectly sincere in his opinion. He meant to be discreet in the selection of the object of his attack. The office of Fifield and Bro. was again entered, together with the tailor shop of Treat & McIntyre, and the fruit store of D. Winters. From \$60 to \$70 in cloth and garments was taken from the shop of Treat & McIntyre, a small amount from the store of Mr. Winters, and an attempt made to blow open the safe of Fifield and Bro. The cutrance into the shop of Treat & McIntyre was made through the rear door by boring into the door and cutting a hole large capagh to pass in a hand and remove the key on the inside of the lock. Menung is Commenter-Time Chadaclanati Gazette gives the particulars of a mander which was committed in that city, mean midnight on Thursday last. No clew to the murdorer has yet been found. The Gazette says:

Botween twelve and one o'clock on Thursday morning, Mr. Crawley also deceased was in company with two young ladies, Miss Sallie Vallette and Miss Carrie Menzies, on their way to Mt. Auburn, their place of resi dence. They had come from the hill early in the evening, for the purpose of attending the convert at the Opera House, after which they had visited the Commercial office, to witness the way of getting up and issuing papers. From thence they started home-vard. On Main street, north of the Canal the young ladies, who were slightly in advance of their table attendant, were grossly inpulted by one of a party of four men.-Mr. Cenwley, maourally indiguant at the outrage, turned about for the supposed purpose of resenting the insult, when he was stabhad to the heart.

The ladies, as we before remarked, were the far distant to witness the transaction, and were horrified at social their friend tagger toward them and immediately fall backwards into the street. They gave the alarm and persons quickly gathered to the pot, but mortal assistance was of no avail. the the heartless villain had marked his vic-

He was employed as assistant principal teacher in the Mt. Authorn Fernale Institute, and was a man of more than ordinary attainments. Notwith-, canding his comparatively short residence in this city, Mr. Crawley had gathered about him a large and respectable circle of friends and acquaintances. He was esteemed for his social qualities, and had proven himself to be possessed of all those attributes which murk the true gentleman, than which no more fitting monument could be erected to perpetuate his memory.
The dagger with which he was supposed

to have been killed was found after daylight yesterday morning, in a yard abutting an alley running west from Main street, near Twelfth. It is about a foot in length, with a lancet shape blade. Upon the blade are still to be seen reminiscences of the foul and idoody deed. The dagger will be pre corved with the greatest care, as it may ye serve to identify the murderer.

For the Daily Cozette. ORFORD, June 11th, 1860. Entrops Gazerre:-Last Saturday the

political "ball" was fairly set in motion in our town. The members of the town club and the people generally of this and adjoining towns (not forgetting a good complement of ladies) assembled in the new M. E. The Judge gave us a good discourse dwelling upon the political history of the country, the present condition and character of the democracy, and the principles and objects of the republican party, &c., just

what the people should know. "Brother" Burgess with his inimitable humor and peculiar story telling qualities was wide awake, and made many good points. Buzglaries .- A series of burglaries have been committed in this city within a week past. At different times the lumber offices of Messrs, J. L. Kimball, Fifield & Bro., Dr. Wright and B. Cook, and the saloon of Rufus Hollister, have been entered, and more or less property taken. Last night more extensive depredations were committed. The office of Fifield and Bro. was again entered, together with the tailor shop of Treat & McIntyre, and the fruit store of D. Winters. From \$60 to \$70 in cloth and garments was taken from the shop of Treat & McIntyre, a small amount from the store of Mr. Winters, and an attempt made to blow open the safe of Fifield and Bro. The entrance into the shop of Treat & McIatyre was made through the rear door by boring into the door and cutting a hole large enough to pass in a hand and remove the key on the inside of the lock. After removing the key, the door was opened by another key from the outside, which was left in the lock. Mr. Winters usually sleeps in his store, but, we understand, was out last evening. The inside door and the lock of the safe of Fifield & Bro. was destroyed, but the bolts held the outer door. It may, perhaps, be a satisfaction to those who design fature attempts on this safe to learn that no money was in it last night, and never is .-In this respect it bears a striking resemblance to a printer's depository of his valu-The frequency of these thefts should in-

MURDER IN CINCINNATI.—THE Cincincinati Gazette gives the particulars of a well in Wisconsin as in Connecticut or any other eastern murder which was committed in that city, near midnight on Thursday last. No clew to the murderer has yet been found. The Gazette says: ed," we would cordially invite all our citizens to call at the office, southwest corner of Main and Wisconsin Between twelve and one o'clock on Thurs-

day morning, Mr. Crawley—the deceased—was in company with two young ladies, Miss Sallie Vallette and Miss Carrie Menzies, on their way to Mt. Auburn, their place of residence. They had come from the hill early in the evening, for the purpose of attending the concert at the Opera House, after which they had visited the Commercial office, to witness the way of getting up and issuing papers. From thence they started homeward. On Main street, north of the Canal, the young ladies, who were slightly in advance of their male attendant, were grossly insulted by one of a party of four men. Mr. Crawley, naturally indignant at the outrage, turned about for the supposed purpose of resenting the insult, when he was stabled to the heart.

The ladics, as we before remarked, were 100 far distant to witness the transaction, and were horrified at seeing their friend stagger toward them and immediately fall backwards into the street. They gave the alarm and persons quickly gathered to the spot, but mortal assistance was of no avail, for the heartless villain had marked his vic-

tim surely.

The deceased was thirty-two years of age, and has been a resident of this city for five years. His place of nativity we understand to be Nova Scotia. He was employed as assistant principal teacher in the Mt. Auburn Female Institute, and was a man of more than ordinary attainments. Notwith-standing his comparatively short residence in this city, Mr. Crawley had gathered about him a large and respectable circle of friends and acquaintances. He was esteemed for his social qualities, and had proven himself to be possessed of all those attributes which mark the true gentleman, than which no more fitting monument could be erected to perpetuate his memory.

The dagger with which he was supposed

to have been killed was found after daylight yesterday morning, in a yard abutting an alley running west from Main street near Twelfth. It is about a foot in length with a lancet shape blade. Upon the blade are still to be seen reminiscences of the foul and bloody deed. The dagger will be preserved with the greatest care, as it may yet serve to identify the murderer.
